PROFESSIONAL SUMMARY

Innovative and driven Front-End Developer with a background in illustration and over 4+ years of experience, specializing in UI/UX design and project management, mastery in React, JavaScript, HTML, and CSS, adept at TypeScript, Node.js, Express, AngularJS, Vue.js, and MySQL. Possesses an indomitable foundation in front-end development through Fullstack Academy training, eager to apply a creative edge and technical expertise with meticulous attention to detail to contribute to project success. Endeavors to utilize keen interpersonal skills and efficacious communication to be collaborative and task-driven. Highly adaptable and capable self-starter, able to move seamlessly throughout the development lifecycle—including developing strategies, wireframes, mockups, branding guidelines, prototyping solutions, testing criteria (A/B testing), and knowledge transfer.

SKILLS

- Frontend Development
- Backend Development
- Communication & Collaboration
- UI/UX Design
- API Integration
- Critical Thinking
- Responsive Web Design
- Representational State Transfer (REST)
- Project Management

TECHNOLOGIES

- React
- JavaScript
- HTML5
- CSS
- TypeScript
- Node.js
- Express
- AngularJS
- Vue.js
- Next.js
- MySQL
- PostgreSQL
- MongoDB
- jQuery

EXPERIENCE

Front-End Developer | UI/UX Designer

Organized.Systems • Contract

Jan 2019 - Present • 4 yrs 11 mos

*Web Development and Design

Built Responsive Websites:

- Developed responsive websites for 40+ clients, tailoring each site to meet the unique branding and user experience requirements of individual clients.
- Collaborated closely with clients to deliver highly customized, visually appealing websites that exceeded expectations.

Optimized Large Data Sets:

- Optimized code for rendering components on UI, reducing HTTP requests by 70% for applications dealing with extensive data sets, such as e-commerce platforms and data analytics tools.
- Implemented efficient data caching mechanisms, resulting in faster page load times and a seamless user experience, particularly for data-intensive applications.

Innovative Technology Implementation:

- Implemented isomorphic React and Node.js for 40+ web applications, significantly decreasing load times by 58% and enhancing overall user experience.
- Integrated modern web technologies, including Progressive Web App (PWA) features, improving website performance and user engagement, especially on mobile devices.

*Object-Oriented UI Development

Reusable UI Components:

- Utilized Object Oriented Programming concepts to develop reusable UI components, enhancing efficiency across various web applications.

EXPERIENCE (CONT.)

*Agile/Scrum Leadership and Collaboration

Agile/Scrum Implementation:

- Spearheaded Agile/Scrum practices in multiple web development projects, conducting daily standup meetings to ensure transparent communication, track progress, and swiftly address challenges.
- Initiated and led regular sprint retrospectives, evaluating team performance, identifying bottlenecks, and implementing process improvements. Cultivated a culture of continuous learning and enhancement within the team.
- Facilitated collaborative brainstorming sessions across diverse teams, bridging the gap between design and development; offered technical insights and expertise, resulting in cohesive, visually appealing, and user-friendly web applications.

UI/UX Designer

Stone & Brier • Contract

Jan 2017 - Jan 2019 • 2 yrs 1 mo

*Creative Direction and Client Collaboration

Enhanced User Engagement:

- Led brainstorming meetings and creative sessions for 3-5 branding and visual design clients, resulting in a 25% increase in user engagement across multiple projects.
- Fostered a collaborative environment, encouraging the generation of innovative ideas and creative solutions to meet client requirements.

Exceptional Design Craftsmanship:

- Developed visually appealing and user-friendly interfaces, improving customer experiences and contributing to a 20% higher client satisfaction rate.
- Ensured seamless integration of design aesthetics and usability, resulting in a cohesive and intuitive user interface design.

*UI/UX Consistency and Documentation

Comprehensive Design Guidelines:

- Maintained platform-wide consistency by meticulously documenting use cases and UI elements, ensuring a standardized user experience throughout the application.
- Developed comprehensive design guidelines that improved collaboration among team members and expedited the design process by 30%.

Agile/Scrum Collaboration and Technical Innovation

Project-Specific Sprint Planning:

- Collaborated with cross-functional teams to define project-specific sprint goals and plan iterations, aligning design objectives with project milestones and stakeholder expectations.
- Employed technical proficiency to propose and implement innovative strategies, resulting in a 15% reduction in development time while maintaining design integrity.

Effective Cross-Functional Communication:

- Worked seamlessly with diverse team members, demonstrating strong communication and collaboration skills. Ensured the integration of design concepts into interactive web interfaces, enhancing the overall user experience.

EDUCATION

Web Development Bootcamp Certificate of Completion

October 2023

Fullstack Academy x Amazon Career Choice

- Back-end proficiency: Node.js, Express, Services, and APIs (REST API integration)
- Frontend proficiency: HTML5, CSS, JavaScript, Razor, Twig, Typescript, Bootstrap, React, Angular, Vue, jQuery, and WebXR
- Data systems proficiency: SQLite, PostgreSQL, Sequelize, MySQL, MongoDB

Bachelor of Fine Arts in Illustration - (BFA Illustration)

January 2016

Rocky Mountain College of Art + Design
